Exercise – Starting with the open string, name all the natural notes up to the 12th fret. DO this on each string and say the notes aloud.
The placement of the notes on the guitar are shown on the following horizontal diagram of the guitar neck. Notice, all the natural notes (not sharp or flat) are one whole step apart, except between B and C and between E and F. These notes are 1/2 step apart. This is true on all instruments.
